

The David J. Joseph Company  
a NUCOR company

# Why Choose DJJ?

## The Best in the Industry

Since 1885, DJJ has built its reputation on innovation, integrity, quality and reliability. We are America's most experienced scrap metal trading, recycling and logistics company.

Our Industrial Group works closely with manufacturers to customize programs that optimize the revenue you

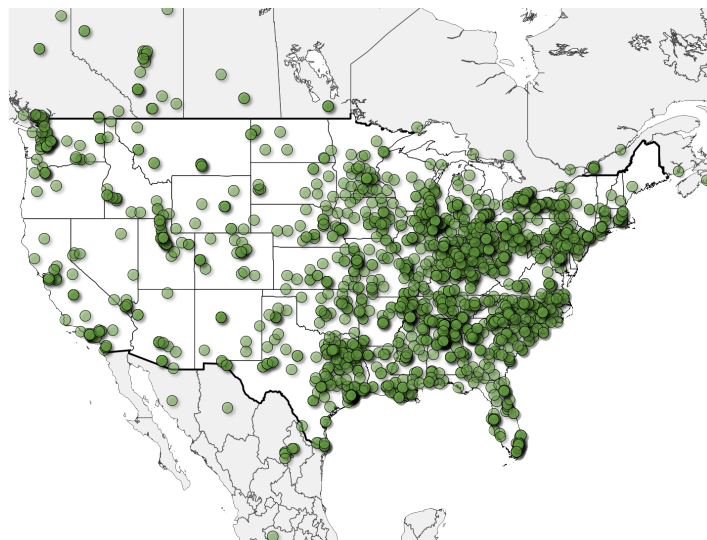

receive for the industrial scrap metal you generate. We maximize your scrap revenue through closed loop recycling by providing direct mill shipments, vast coverage, on-site services, and scrap management.

Our customers include many automotive OEM's, Tier 1 and Tier 2 suppliers, fabricators, HVAC producers, heavy equipment, railcars, pipe and tube manufacturers, service centers, and stamping companies.

## Our Services

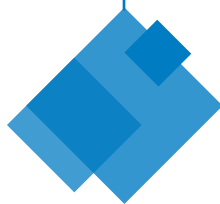

### Mill Direct Shipments

We ship directly from your plant to the mill to maximize your profit. We have ferrous and non-ferrous consumers across North America, including aluminum agencies and Nucor, our parent company. Nucor is the largest manufacturer of steel products in North America and is #120 in the Fortune 500 companies.

### A Vast Network To Service Your Account

Our competitive advantage is our unparalleled nationwide coverage. We collaborate with a vast network of partners to move scrap to hundreds of steel mills and foundries, including aluminum and copper mills, around the world.

# Getting Your Scrap To The Mill

We have the capacity to service ferrous and non-ferrous scrap producers all over North America. No matter where you are, we will be there.

## Scrap Optimization

Our team helps you maximize your material's worth, by separating your scrap by alloy, sizing, and more.

## Logistics

We work 24/7 to manage your scrap, working behind the scenes to make every process smooth and worry free.

## Transportation Equipment

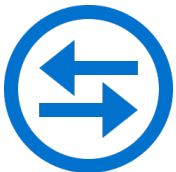

Whether you need dump hoppers or trucks to transport your scrap, we will get it there.

## Processing Equipment

We will make sure you have the tools you need to process your scrap, from balers to shredders.

# Making scrap management easy: ScrapConnect.net

## Transaction Transparency

Our transaction systems offer enhanced reporting, the availability of real-time data, and increased visibility for DJJ's customers and suppliers.

## Easy Access to Information

Get online, real-time information about scrap via ScrapConnect. This provides current information on contracts, shipments, and payments 24/7.

## Consolidated Reporting

We present your data across multiple facilities in one convenient location. No more searching for your data when you can see all your facilities in one place.
